## NV200 Firmware Version 5.47 and 4.47 Released

New versions of NV200 firmware has now been released, 5.47 and 4.47. Firmware is contained within the currency dataset files and is available to [download free from our website](#) within Technical Support/Currency Download.

### Features:

- SMART Payout improvements;
  - Tape calibration routine
  - Tape positioning
- Added support for Spansion flash cards
- New bezel options;
  - Bezel red when full
  - Fast flash when note in bezel

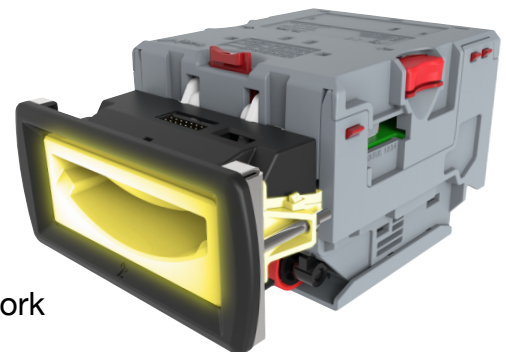

## NV10 USB+ Firmware Version 3.43 Released

A new version of NV10 USB+ firmware has now been released, 3.43. Firmware is contained within the currency dataset files and is available to [download free from our website](#) within Technical Support/Currency Download.

### Features:

- Added more DA3 logging events
- Improvements to anti-jam and rejection routines
- Fixed issue where resetting BNV key via button would not work

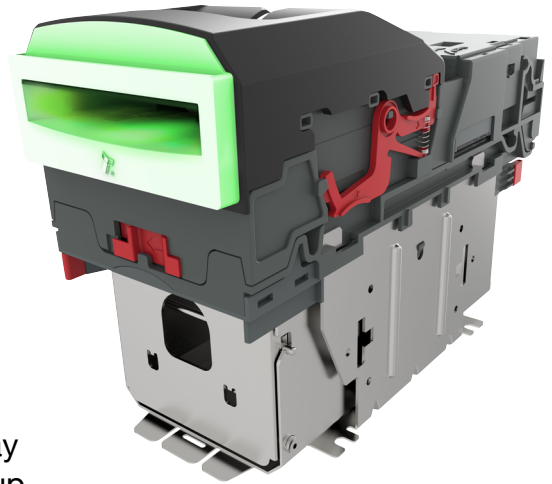

For more information contact: [support@innovative-technology.com](mailto:support@innovative-technology.com)

## NV9 USB+ Firmware Version 3.73 Released

A new version of NV9 USB+ firmware has now been released, 3.73. Firmware is contained within the currency dataset files and is available to [download free from our website](#) within Technical Support/Currency Download.

### Features:

- Printer support for Macronix SPI Flash
- Speed improvements to printer
- Fixed issue where stacker plate would occasionally stay in an extended position when stacker was full at start up

## BV50 Firmware Version 4.17 Released

A new version of BV50 firmware has now been released, 4.17. Firmware is contained within the currency dataset files and is available to [download free from our website](#) within Technical Support/Currency Download.

### Features:

- Improved note drive when moving note into stacking position

Product	BV20	BV50	BV100	NV9USB+/ NV11	NV10 USB+	NV200/ SP	SH	SCS
Software	4.19	4.17	4.16	3.73	3.43	4.47/5.47	6.31	1.10

For more information contact: [support@innovative-technology.com](mailto:support@innovative-technology.com)

### DA3 Software Version 1.22 Released

A new version of DA3 software has now been released 1.22. All of the latest software is available to [download free from our website](#) within Technical Support/Software Download.

Please note DPS has also been updated (1.2.2) to support this latest DA3 software version.

#### Features:

- Added support for BV50(ST)
- Added support for NV9 Stackerless

### Validator Manager Version 4.5 Released

A new version of Validator Manager has now been released, 4.5. Please note that this replaces all previous versions and we recommend that customers update to this latest version for improved functionality and product support. All of the latest software is available to [download free from our website](#) within Technical Support/Software Download.

#### Features:

- Continuous improvements and bug fixes

Product	DA3	DPS	Validator Manager	SMART PIPS	NV Card Utilities	ITL Drivers
Software	1.22	1.2.2	4.5	2.3.6	1.9.8	2.1

### New Swiss 10-Franc Note Released October 2017

The new 10-franc note has arrived. Following the launch of the 50-franc and 20-franc note, this is the third of six denominations in the new banknote series being phased in by the Swiss National Bank between 2016 and 2019.

In the ninth banknote series the Swiss National Bank is breaking new ground on the design front – it is moving away from the depiction of well-known personalities altogether. The 10-franc note focuses on Switzerland’s organisational talent – expressed by time, the note’s key motif.

We are pleased to announce that our datasets for the NV200, NV9, NV10 and BV20 have all been updated and can be [downloaded from our website](#) for free.

### New UK £10 Note Released 14/09/17

On 14th September 2017, the new £10 note officially entered circulation. The new £10 is the second Bank of England note to be printed on polymer and is around 15% smaller than the existing paper £10. The new £10 note incorporates enhanced security features and has a number of design elements which relate to Jane Austen. It provides enhanced counterfeit resilience, and increases the quality of notes in circulation. The old £10 will be withdrawn from circulation during Spring 2018.

The new £10 has been included in all of our datasets since summer and can be [downloaded from our website](#) for free.
